400 V-8—4-bbl.
- Sure-Grip Differential
- 440-Ampere (70-amp.-hr.) Battery
- Air Conditioning
- Engine Block Heater
- Class I or Class II Hitches\*\*
- Load Equalizer Hitch Platform\*\*
- Extended Rearview Mirrors\*\*
- Air Shock Absorbers\*\*

\*\*Dealer Installed

### SATELLITE TRAILER-TOWING REQUIREMENTS

The Manufacturer's Passenger Car Warranty will apply to cars used to tow trailer for a non-commercial use, but if the loaded trailer weight exceeds 1500 pounds, the following conditions must be met: (1) Equip the vehicle with a factory-installed Trailer-Towing Package; (2) If the loaded tongue weight exceeds 200 pounds, equip the vehicle with a properly installed frame-type load-equalizing hitch; (3) In addition to the normal Required Maintenance Services, (a) change transmission oil and filter and adjust transmission bands every 24,000 miles and (b) change rear axle lubricant every 36,000 miles or 3 years (whichever occurs first); (4) Loaded trailer weight must not exceed 6000 pounds. If the loaded trailer weight exceeds 4000 pounds, the car must be equipped with a 400-cu.-in. engine.
